

WE REMOVE ICE DAMS!

CALL TODAY!

763-795-8496

- Refer a friend or neighbor, receive \$50 gift card
- Typically 1-day turnaround
- Water access is needed
- Payment at time of completion; credit card can be taken prior and charged after if unable to be home.
- Larger projects, multiple address will be 'per bid' for potential cost savings

Steam is used to clean roof area at problem areas (valleys, gutters, 4-6' up at eaves). We suggest cleaning off entire roof, but that is homeowners' choice. If snow is removed from roof, it will be cleared from walks & driveways, all other piles of snow are homeowners' responsibility. When steam is used on roof, ice may form on ground. Walks & driveway will be steamed when complete and a thin layer of ice melt will be applied. It is homeowners' responsibility once crew has departed.
